🌐 Portfolio

Profile

22-year-old software engineering student based in Tétouan. Specialized in **software architecture**, **DevOps**, and **cloud engineering**. Experience in designing **scalable systems**, **Docker** containerization, and deployment on **AWS/Firebase**. **Full-stack** development with a focus on **design patterns**. Certified in **Google Cloud** and **AWS Cloud Practitioner**.

Education

- **Engineering Degree in Computer Science** — National School of Applied Sciences, Tétouan **2021 – 2026**
- **High School Diploma in Mathematical Sciences** — Honors, Tétouan **2020 – 2021**

Professional Experience

VNB IT – Pontoise, France **June – August 2025**

End-of-Studies Project (3 months)

- Development and production deployment of a **full-stack** application (**Next.js**, **TypeScript**, **MongoDB**)
- **Multi-role** architecture with **JWT** authentication and **QR code** generation
- **Real-time** analytics dashboard with performance optimization
- **CI/CD** pipeline implementation and **API** security

NTT DATA – Tétouan, Morocco

July – August 2023

Application Internship (2 months)

- Development of an HR management application in **C#** (**.NET Framework**)
- Implementation of **MVC** architecture and **SQL Server** database management

Projects

WaslMed – *Multi-Tenant Telemedicine Platform* **2025**

- **Multi-tenant** architecture with **RBAC**, **real-time** messaging (**WebSockets**), **contextual AI**, and medical **QR code** generation
- **Serverless** stack: **Next.js 15**, **Node.js**, **MongoDB Atlas**, **JWT/NextAuth.js** authentication
- Infrastructure: **GitHub Actions** **CI/CD**, **Docker**, **Kubernetes**, **zero-downtime** deployment on **Vercel Edge**

Polaris Clubs Manager – *University Club Management*

2025

- **Event-driven** architecture with **real-time WebSockets**, **PostgreSQL** **triggers**, and **CDC** (Change Data Capture)
- Stack: **Node.js/Express**, **React**, **PostgreSQL**, reservation system with conflict management
- Automated **CI/CD** pipeline with **zero-downtime** deployment and **preview environments**

Skills

- **Architecture & Systems**: System Design, Microservices, Design Patterns, Distributed Systems, UML, Linux
- **DevOps/Cloud**: Docker, Docker Compose, Proxmox, Git, CI/CD, AWS (EC2, S3, Lambda), Firebase, Vercel, Agile/Scrum
- **Programming Languages**: Java, TypeScript/JavaScript, Python, C, SQL, PL/SQL
- **Databases**: PostgreSQL, Oracle, MongoDB, MySQL
- **Frameworks**: Spring Boot, JEE, Next.js, React, Vue.js, Node.js, Express.js, Django
- **APIs & Auth**: RESTful, GraphQL, OAuth, JWT, WebSockets

Certifications

Google Cloud Professional Cloud Architect — Google Cloud Certified Data Engineer — AWS Certified Cloud Practitioner

Awards

- **1st Prize** – Enactus ENSATé (Nov. 2025) – “SahaLink” Project
- **1st Prize** – Innova Hub (Feb. 2025) – “WaslMed”
- **Project Lead** – “Geeks Day” Event (2025)

Languages

Arabic (Native) — French (Advanced - C1) — English (Advanced - C1) — Spanish (Beginner - A2)
